SOUND FAMILIAR?

What owners tell us before they start.

Decision Drain

Every decision takes more out of you than it gives back. Nothing feels settled.

Hustle Hangover

You have been grinding for years, and the results still do not match the effort.

CEO Drift™

You are running tasks, not running a business. The vision keeps moving to tomorrow.

Everything Runs Through You

The business cannot move faster than you can personally handle it.

THE SHIFT

You are already the CEO. You just have not stepped into the role yet.

You do not need a C-suite or a board of directors. If you make the decisions, carry the risk, and set the direction, you are the CEO. CEO Mindset™ gives you a framework that matches that reality.

MEET YOUR FACILITATOR

Juliann Nichols

Founder and CEO, JULO Strategy Global

Juliann started her first business at 16 and has been building ever since, including a private investigation agency she grew and sold. She founded JULO in 2007 for owners stuck in the middle of the journey: past the startup rush, not ready to exit, and tired of doing it all alone.

Clients say the thing they cannot get anywhere else is how she works through their real situations, live, in the room.
